Re: Salton Sea Authority – 2025/2026 Draft Operating Budget

At the March 20, 2025 meeting of the Salton Sea Authority Board this draft budget was first presented and explained in detail. Since the presentation no substantive comments have been received. Staff is representing the 2025/2026 Operating Budget for final review, **recommending adoption, and requesting authorization to issue member invoices for member invoices for the coming year.**

Included herewith is a draft Salton Sea Authority operating budget for 2025/26. Based on year-to-date operations and projected performance, we once again expect to end the year with positive operating results, performing nominally to this year's approved budget overall. You will find that next year's budget tracks closely with historical expenses and anticipates **member contributions for the year will remain unchanged** from the previous, while again **projecting positive results from full year operations.**

You will also notice the budget includes two extraordinary revenue line items, indicating financial support from "partners and stakeholders" totaling \$525,000 in aggregate. We included it on the budget to highlight two potential funding sources – Proposition 4 and the feasibility study. As you know, Proposition 4 includes \$160 million for the Salton Sea Management Program, and an additional \$10 million for the Salton Sea Authority and the conservancy. The feasibility study was secured by the Authority in 2020 and the Authority serves as a "joint local sponsor" along with the state. Based on our experience to date, we believe there are tasks associated with this effort that may best be performed by the Authority which under our agreement would be treated as "in kind" work and reimbursable from the state (Pursuant to our agreement the state indemnifies the Authority for costs associated with this effort).

The Authority make a specific budget request to the state for funds under Proposition 4 to support our collaborative effort to stand up the conservancy, and to fund the Authority's significant ongoing work of mutual benefit including the feasibility study and

community engagement – particularly as it relates to concerns around Colorado River impacts to local stakeholders. As the budget reflects, we do receive very limited reimbursements from Prop 68 grant for the North Lake Pilot Demonstration Project, and even less financial support from USBR for work done on Desert Shores. We intend as part of the restructuring of those agreements to advocate for more equitable treatment of the Authority for work performed in this regard.

It is important to note that positive operating results are achieved net of these extraordinary revenues, and no expenses have been assigned thereto in the current budget draft. If we are successful in securing these funds, they would be used by the Authority to further support the efforts of our state and local partners, particularly in the implementation of the conservancy and feasibility study, including the addition of administrative, outreach, and engagement capacity.

Our budget presentation focuses primarily on the operating expenses and member contributions in anticipation of a final review, approval, and authorization to distribute invoices when it is presented again in May (we do not expect any material changes). It does **not** reflect the dollars that will flow through the Authority in trust under the North Lake and Desert Shores grants, which will likely amount to several million dollars next year and for which the Authority receives little direct benefit. It should be acknowledged, however, that these grants and the successful completion of the projects associated therewith are important to our member agencies, as their constituents should benefit greatly from the funded projects.

Recommendation:

Adopt operating budget as presented, authorize the issuance of invoices for member agencies for the coming year.
